

# Redgate Disposal

CALL OR TEXT (816) 277-8572 / (816) 716-6265

- **Please have trash and recycling out by 7am on Mondays. Please place recycling on the opposite side of the driveway from trash.**
- Trash limit is 8 bags (no larger than 39 gallon) or 4 cans from a retail store per week of household trash. No plastic chemical/metal burner barrels may be used.
- We request that all trash be bagged. Please flatten cardboard boxes for disposal. Please double bag animal waste and do not overfill the bags.
- Call or text the office to sign up for curbside recycling and receive totes.
- 2 bulky household items per week- includes furniture, mattresses, or TVs. Call or text the office to schedule large appliance pickups. Freon must be removed prior to disposal.
- No lumber, carpet, or remodeling materials will be accepted. No hazardous materials will be accepted such as paint, batteries, tires, florescent bulbs, oil, ammunition, loose broken glass or chemicals. No yard waste (grass, leaves, branches, mulch) will be accepted.
- In hazardous weather conditions, service is subject to road conditions. Any weather-related delays in service will be communicated via our Facebook page and our voicemail message.
- Be advised that extreme cold temperatures can cause plastic trash cans to become brittle and may break. We would suggest setting bags out to the curb in lieu of cans when temperatures are very cold.
